Website Design Trainer

Description

GO USETECH is seeking a **qualified and passionate Website Design Trainer** to deliver practical web design and development training to youth, refugees, and host community members in **Kyangwali Refugee Settlement, Kikuube District – Uganda**.

GO USETECH is a community-driven organization committed to **empowering youth and vulnerable communities through practical skills development, digital training, and entrepreneurship programs**. Our mission is to equip learners with **modern digital skills that enable them to create online opportunities, start digital businesses, and generate income through technology**.

Through our ICT programs, participants gain hands-on experience in **web development, digital tools, and online platforms**, enabling them to design websites for businesses, organizations, and personal brands. Learners are also guided on how to **use their web design skills to provide services online, promote businesses, and create digital solutions for communities**.

The Website Design Trainer will provide **practical and easy-to-understand training** in web design, ensuring learners can confidently build and manage websites while developing skills that support **freelancing, entrepreneurship, and digital employment**.

Responsibilities

- Design and deliver a **comprehensive website design training curriculum** suitable for beginner and intermediate learners.
- Train students in **HTML, CSS, WordPress, and website builders such as Elementor or Divi**.
- Teach **basic UI/UX design principles** to help learners create user-friendly websites.
- Guide trainees in developing **functional websites for real clients and community organizations**.
- Train learners on **domain registration, web hosting, website security, and backup management**.
- Prepare **training materials, demonstrations, practical assignments, and learning resources**.
- Monitor learner progress and prepare **regular training reports and evaluations**.
- Provide **additional support and mentoring** to struggling learners.
- Maintain a **positive, inclusive, and collaborative learning environment**.
